

DRY IRISH STOUT (All Grain)

Official NORTHERN BREWER Instructional Document

Arguably Ireland's most famous export, dry stout has a loyal following all over the world. Our kit has a pronounced roasty, coffee-like flavor and aroma, imparted by a generous helping of roasted barley. Hop bitterness enhances the dryness, and the medium body makes for a very drinkable dark beer. This is one of the most popular styles among home brewers; after a few pints, you'll understand why.
