

# MILD ALE (All Grain)

Official NORTHERN BREWER Instructional Document

Mild ales are very light-bodied with low bitterness but dark in color and full of malty flavor, striking a nice balance between quaffability and character. A special blend of malts imparts a nutty dryness with roasty undertones and a rich deep-ruby color, with subtle fruitiness from the yeast. A great session beer (which means you can have a few pints instead of one) that tastes best at cellar temperature.

## OG 1.032 READY: 4 WEEKS

Suggested fermentation schedule:

- 2 weeks primary; 2 weeks bottle conditioning
